 BACTERIAL BLIGHT AND SCLEROTINIA HEAD AND LEAF DROP
 ON LEAFY VEGETABLES**

FIFRA Section 2(ee) Recommendation

This recommendation is made as permitted by Section 2(ee) of FIFRA, as amended, and has not been submitted to or approved by the U. S. Environmental Protection Agency.

FOR USE IN ALL STATES WHERE CROP AND PEST(S) EXIST AND WHERE 2(EE) RECOMMENDATIONS ARE RECOGNIZED.

REGALIA®
EPA Reg. No. 84059-3

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

CROPS	DISEASES	RATES	USE RECOMMENDATIONS
Leafy vegetables such as arugula, beet, broccoli rabe, celery, chervil, cilantro, corn salad, cress, dandelion, dock, edible chrysanthemum, endive, fennel, garden peas, head lettuce, leaf lettuce, parsley, purslane, radicchio, rhubarb, spinach, swiss chard, and watercress	Downy mildew (<i>Bremia lactucae</i> , <i>Peronospora sp.</i>) Powdery mildew (<i>Erysiphe cichoracearum</i>) Sclerotinia Head and Leaf Drop (<i>Sclerotinia minor</i> and <i>S. sclerotiorum</i>) Bacterial blight (<i>Xanthomonas spp.</i>)	Regalia is recommended to be applied at 1-3 pints per acre alone or in a tank mix program with another registered fungicide when applied by air or by ground in 10 to 25 gallons per acre.	Begin applications preventatively (before disease symptoms become visible). Repeat applications at 7 to 14 day intervals as needed.

All applicable directions, restrictions and precautions on the EPA-registered label are to be followed.

This FIFRA Section 2(ee) recommendation contains new or additional directions for use of this product, which may not appear on the package label. Read and carefully observe the cautionary statements plus all the other information appearing on the product label.

This recommendation must be in the possession of the user at the time of pesticide application.
