Marrone Organic Innovations Appoints David Warman U.S. Sales Manager

Davis, CA (February 27, 2008) - Confirming its ongoing commitment to providing innovative organic solutions to pest management, Marrone Organic Innovations (MOI),

announces the appointment of David Warman as its U.S. Sales Manager. David will oversee sales to all markets including Agriculture, Specialty and Turf & Ornamental. MOI currently markets GreenMatch™, an Organic Burndown Herbicide that provides effective, non-selective weed control to organic growers and to other areas where chemical pesticides are undesirable.

Marrone Organic Innovations discovers, develops, and markets effective and environmentally responsible natural products that focus on unmet needs for weed, pest and plant disease management. "MOI has a rich pipeline of effective new products; David will be working with current and new distribution partners to effectively launch these new compounds" states Pam Marrone, CEO and Founder of MOI.

David comes to MOI with an extensive background in the Agricultural, Specialty and T&O markets. Prior to MOI, he was responsible for the development of the Professional Products Line of biological products for AgraQuest Inc, Davis CA. Before that, David worked for Griffin LLC as Regional Manager responsible for all Ag products in the Eastern US. David entered the crop protection business with Ciba/Geigy (Novartis), where he spent 21 years in various Agricultural, Specialty and T&O sales, marketing, and sales management positions.

"David is an important addition to MOI's management team," notes Julie Versman, VP of Marketing. "With his extensive sales and marketing background, and his knowledge of both organic and synthetic crop protection products, he has the base of experience needed to execute growth strategies and deliver on our commitments to the marketplace."

David is a native of Oregon and a graduate of Oregon State University with a degree in Agronomy. He resides in Ocala, FL.

Marrone Organic Innovations discovers, develops and markets effective and environmentally responsible products that fill unmet needs for weed, plant disease and pest management. Through a combination of in-licensed technology and its own R&D, MOI develops products that target markets needing better and safer solutions. MOI has an impressive pipeline of new products from its own inventions and those licensed exclusively from others.
